

# Feelux Forrest Hill Residence Project receives IES Award of Merit for Lighting Design

Feelux is proud to be involved in this recently completed project that has received a IES award of Merit!

Feelux Canada worked closely with Gottesman Associates, a Toronto based lighting designer, to bring this residential project to life!

Our low profile NDP linear LED fixtures were used to create a stunning look in this home.

Feelux NDP is perfect for under-cabinet and cove applications. With 90 CRI, spot free and no dark spots, it brings an elegant look to any home. Best of all it is in stock at Feelux Canada in Toronto!

Contact [info@feeluxcanada.com](mailto:info@feeluxcanada.com) for more details and please also visit [www.gottesman.ca](http://www.gottesman.ca) for your lighting design needs!
